

11 before 11

We firmly believe that our curriculum should not only revolve around the academic subject based requirement laid out in the National curriculum. As a result, we have identified eleven activities which we feel are essential childhood experiences.

During their time at Larkhill Primary all pupils will have the following enrichment opportunities.

These opportunities have been designed to not only support the acquisition of knowledge within the curriculum but to enrich the child's personal, social and emotional well-being and provide them with the skills and experiences that we feel are important to experience during childhood.
